Below are questions and answers as follows:

1. When will the date of the first monetary installment of the Transition Fund be made to the chosen short-term operator?

RESPONSE: The board has not yet approved the transition fund. Should the board approve use of the funds, payment terms will be established through the development of the School Management Agreement.

2. What is the date by which access to student data is granted (With the realization that a data sharing agreement will be entered into)?

RESPONSE: OPSB will be prepared to enter into a data sharing agreement as a component of the school management agreement. We anticipate being prepared to enter into a school management agreement by February 1, 2019.

3. Will there be any restrictions on building access for the chosen short-term operator during January 2019 – June 2019? If so, please detail.

RESPONSE: Since this will be an operating school campus during this time reasonable access can be granted but must not interfere with instruction.

4. Please confirm that the date of the building transfer to the chosen short-term operator will be July 1, 2019.

RESPONSE: The building will not be leased to the short-term operator. We anticipate access will be provided to the short-term operator by July 1, 2019.

5. Please confirm that OPSB will be operating summer school/credit recovery for current 10th-12th grade students during Summer 2019.

RESPONSE: OPSB will operate a summer credit recovery program for McDonogh 35 students during the Summer of 2019.

6. We would like to request a building walkthrough before the RFP submission deadline. Please let me know when this would be possible for later this week.
